VI. Procurement (Discussion and Possible Action)

Presenter: Louis Tatum, CFO

- a. PEO Briefing
- b. Audit RFQ Contract Recommendation
- Mr. Ricardo Ramirez provided the Board with information regarding the Audit RFO Contract recommendation.
- The 4th and final renewal of WSA's Financial Auditing Services contract with
- ABIP expired September 30th, 2020, for a total cost of \$65,700. Upon the expiration of the contract, WSA issued a Request for Qualifications (RFQ) for Financial Auditing Services from qualified and experienced accounting firms whose principal officers are independent, Certified Public Accountants (CPAs).
- Offerors were required to have the necessary technical competence, skills, and professional judgment, including experience in working with nonprofit, governmental, and quasi-governmental organizations and familiarity with all applicable federal and state laws, regulations, and rules. A summary of solicited services included:
  - o Prepare/file corporate Income Tax Return (Form 990),
  - o Perform audit in compliance with Single Audit Act and 2 CFR 200.501,
  - Report on internal controls over financial reporting and on compliance on related matters,
  - Nonmaterial instances of noncompliance to be reported in separate management letter,
  - Retention of all working papers and reports at auditor's expense and as legally required,
  - o Perform with the highest level of integrity and business ethics,
  - Comply with all professional accounting and audit rules, guidelines, and requirements.
- WSA received responses from five bidders. The responses were evaluated internally by WSA Staff, and the ranking of the qualifications is based on the best interests of WSA. A summary of scores and a recommendation for the selection of a single contract are as follows:
  - 25 points: current and past performance tied to experience with financial audit services for similar agencies,
  - o 30 points: demonstrated ability, knowledge/expertise of key personnel,
  - 25 points: engagement plan demonstrating aptitude/know-how and aptitude for management and completion of the project,
  - 20 points: reputation and experience via relevant references,
  - 5 points: Historically, Underutilized Business (HUB) entities with at least
     51% owned, operated, controlled by minority group members as defined
     by State law, including female-owned businesses.
- Proposals were required to achieve an overall score of at least 70 points to be considered for selection and contract award (maximum of 105 overall points).

- The top two were ABIP with a score of 99.3 and Garza-Gonzalez with a score of 102.
- WSA Staff recommendation is to negotiate with Garza-Gonzalez to provide Financial Audit Services. In the event, the negotiations are not favorable to WSA, proceed to negotiate a contract with ABIB for the same purposes.
- The duration of the contract shall be for a period of one (1) year from the date
- of execution of the agreement. The Board may opt to extend for up to four (4) one (1) year extensions based on WSA needs and availability of funds. In no event shall the total term of the contract exceed five (5) years.
- The estimated annual budget is \$80,000 (expecting increased involvement with short timeline). WSA will retain an additional 10% for contingency for an
- estimated total of \$88,000.
- Vice Chair Jamie Allen asked why the RFQ was not issued earlier to have auditor in place at the beginning of the FY.
- Mr. Lopez responded that additional contracts with Bexar County and COSA were last minute "add-ons" to the audit, plus COVID delays.
- Mr. Peavy and Mr. Cooper asked staff to review the references and commented on the risks of changing auditors during current conditions.
- Mr. Lopez reviewed the scoring, highlighting the HUB points being a factor in the scoring.
- Mr. Lopez addressed Mr. Peavy's concern of an auditing service coming in and having to learn the workforce board process/business. He added, Garza-Gonzalez is a local firm with over 20 years of experience. Their staff qualifications are superior compared to the other bidders that were submitted. They have dealt with Rio Grande Valley workforce boards and the COSA.
- Upon motion by Director Eric Cooper and second by Director Yousef Kassim, the Board unanimously approved the audit firms of Garza-Gonzalez and ABIP, with final selection to be negotiated and selected by staff, with participation of any Board members, for a contract term of one (1) primary year with four (4) option terms of one (1) year each (at WSA's option).
- VII. Strategic Committee (Discussion and Possible Action)

Presenter: Louis Tatum, CFO

- a. Floresville Center Location/Relocation Recommendation
- Mr. Tatum and Mr. Daniel Gostylo, realtor, briefed the Board on the options for relocation of the Floresville service center.

The space offered is in the front of the current facility which would provide greater visibility for Workforce Solutions Alamo. By continuing to work with the current landlord we may also be able to negotiate advantageous terms of the holdover period to avoid the additional cost of storage and moving expenses.
- Upon motion by Director Eric Cooper and second by Director Betty Munoz, the negotiation and execution of a lease at the new location in the front of the shopping center in Floresville was unanimously approved by the Board, subject to local input by the County Judge.

| Equipment                 | 18.89%     | Equipment is under budget due to a timing difference in the purchase of software and equipment that are expected to be purchased before the end of the second quarter.   |

#### **MEMORANDUM**

To: WSA Board of Directors

From: Louis Tatum, CFO

Presented by: Mary Batch, Chair Audit & Finance Committee

Date: March 26, 2021

Subject: Briefing Regarding Status of Financial Auditing Services – Procurement of

**New Contract** 

**SUMMARY:** This memo serves to provide a briefing regarding the status of the Financial Auditing Services RFQ – no action is required. We have moved forward with the selection of the firm that will be completing our Financial Auditing Services.

The 4<sup>th</sup> and final renewal of WSA's Financial Auditing Services contract with ABIP expired September 30<sup>th</sup>, 2020, for a total cost of \$65,700. To that purpose, WSA issued a Request for Qualifications (RFQ) for Financial Auditing Services from qualified and experienced accounting firms whose principal officers are independent, Certified Public Accountants (CPAs). The following provides an update on the status of the RFQ.

#### Phase 1

- On 02/19/2021, Board Staff presented to the Board of Directors the results, ranking, and recommendation regarding the five proposals that were received and evaluated.
- The Board of Directors determined that it would be beneficial to perform an additional assessment of the top two finalists to secure increased assurances concerning the successful completion of the engagement given the short timelines especially during the pandemic.

#### Phase 2

- Additional written information from the two top finalists was received 02/26/2021. This included a written project plan with information covering the following elements:
  - o Engagement activities (focus on remote capacity/work),
  - Communication with Board Staff (focus on communication and coordination ahead of time to not delay completion),
  - Detailed timeline (focus on assurances that work will be completed fully and on time),
  - o Best and final offer (costs).
- The additional information was assessed by the internal evaluation panel, and the scores of the evaluation were provided to the CEO for final determination.

#### STAFF RECOMMENDATION/ACTIONS:

Two options were reviewed for the selection. Option A shows the results of only Phase 2. Option B shows the results of both Phase 1 and 2 combined. Results from Phase 2 (Option A) more clearly show the advantage of ABIP as these incorporate the further assurances that we were seeking for a full and prompt completion of the engagement. Option B shows ABIP coming ahead when taking both phases combined. Scores of Phase 1 (Option B) could not at this point be considered without accounting for and taking into consideration the scores of Phase 2 (Option A).

#### **MEMORANDUM**

To: WSA Board of Directors
From: Adrian Lopez, CEO
Date: March 26, 2021

Regarding: Current Status and Recommendation on Marbach Office Space

**SUMMARY:** The current lease at Marbach expires on May 31, 2021. WSA is currently exploring alternate facilities to upgrade the Workforce Center at Marbach.

**ANALYSIS:** The three primary sites that are being considered for the Workforce Center at Marbach. The following premises offer comparable square footage, price, and common area cost.

Option 1: The current space at Marbach Plaza is not the preferred option due the location of the space. The board is looking for a more desirable location that would attract employers and job seekers. This space is being offered at \$11.80/SQF, before any tenant improvements.

Option 2: The Shops at 90 located at 7535 Hwy. 90 West. Although this is an ideal location with significant parking, the building needs a new roof and the current landlord is not willing to contribute to any tenant improvements. This space is being offered at \$15.00/SQF, before any tenant improvements.

Option 3: The location at Port San Antonio is currently a warehouse that is located at 628 Davey Crockett. This space can be customized to the needs of the board, where the landlord is will to contribution \$80/SQF in tenant improvements. Parking and a renovation project plan will need to be negotiated. This space is being offered at \$17.00/SQF, before any tenant improvements.

**FISCAL IMPACT:** None at this time. The FY22 budget will include expenditures required to support the renovation of the selected Workforce Center.

CURRENT STATUS: The Strategic Committee has approved for board staff to enter into a 12-month agreement with the existing landlord to give us time to select a new site and complete the necessary tenant improvements. Workforce Solution Alamo's Real Estate Agent is current working with the existing landlord to negotiate and lease for the next year which currently expires on May 31, 2021. He is additionally requesting additional information from Port San Antonio to determine if the space presented can fit the needs of the board. An update will be provided at the next meeting.

#### **MEMORANDUM**

**To:** WSA Board of Directors

From: Adrian Lopez, WSA CEO

Presented by: Mark Milton, Chief Operating Officer

**Date:** March 26, 2021

Subject: Briefing Regarding Programs & Performance Report

**Summary:** This item is to provide an update of and highlight elements related to Programs and Performance.

#### Analysis:

1) **TWC-Contracted Performance**: Meeting and/or Exceeding 13/15 TWC-contracted performance measures. Plans are in place to catch the missing two items up in Q2 of 2021.

#### 2) Special Grants & Other Initiatives:

- All Centers are currently open to the public and are receiving clients (appointments and virtually). All parking lots are equipped with WiFi as well.
- Bexar County and COSA projects are in progress and production is being made on each. Training is projecting on schedule and OJT is behind. We will be capping new enrollments into the Bexar Co. program beginning in March and will focus on clearing those in the pipeline.
- Staff are working on internal monitoring and audit reports to ensure we are up to date and compliant with all state requirement.
- WSA was awarded an additional \$3.5 million in Disaster Dislocated Worker funding program has launched, and progress is being made on the outcomes. \$1 million of this funding has been approved by TWC for vocational training.
- WSA conducted 3 significant hiring events in February to include OW Lee (200+ job seekers), a logistics job fair (100+ job seekers), and a drive-thru job fair for Toyota (400+ cars and 350+ job seekers referred for hire).

- 3) We are working closely with C2 to develop and formalize the On-the-Job Training Initiative to generate more interest into the program. We are also focusing on the sector-based model with C2 Global.
- 4) Child Care team is monitoring the progress of enrollments into the program and is currently at 92%. The goal of 95% is expected to be achieved by the end of February.

#### 5) Special Grants and Initiatives

WSA is currently managing 20 grants or special programs outside of the traditional TWC formula funding streams. The highlights of those programs and grants are listed in the power point presentation and include:

- TIP Grant Seguin and Hill Country Memorial
- SDF Grant Seguin and Navarro ISD; Hallmark and NEISD
- TIP Grant Caterpillar
- SDF Grant United Alloy
- SDF Grant Lonestar Construction and Trades

#### 6) Bexar and COSA Projects

#### **Alternatives:**

No alternatives are being considered at this time.

#### Fiscal Impact:

We have seen an increase in funding for our Disaster Dislocated Worker funding of \$3.5 million and a decrease of CARES funding by \$3.2 million.

#### **Recommendation:**

Recommendation is to approve the plan as highlighted above.

#### **Next Steps:**

Next steps will be to continue to monitor the centers that are open and ensure we are safely serving the community and protecting our staff. In addition, we will be monitoring all current active grants and special programs.

# **BUDGETS**

#### WORKFORCE PROGRAM SUMMARY DESCRIPTION

"Programs" can be classified in different ways as based on the way that they come about. These include "Formula-Funded Grants," "Workforce Initiatives," "Special Grants/Projects," "Fee-for-Service Grants," and "Other TWC Grants."

#### Formula-Funded Grants

Funds for services are allocated to state and local areas based on a formula. These grants are the Board's 'bread and butter' and form a part of our primary or core programs.

**Child Care Services (CCS)**. Child care subsidies in support of low-income parents' employment (retention) and/or completion of education and training. Services are also offered to TANF/Choices and SNAP E&T participants, as well as for children in need of protective services.

**Non-Custodial Parent Choices (NCP)**. Program targets low-income unemployed or underemployed noncustodial parents who are behind on their child support payments and whose children are current or former recipients of public assistance.

**Quality Improvement Activities (QIA)**. Initiatives that help promote the quality of child care, including training and technical assistance that are primarily geared to benefit child care facilities that are working toward Texas Rising Star (TRS) certification or are TRS providers working toward a higher certification level.

**Rapid Response**. Rapid Response is a proactive, business-focused strategy designed to help growing companies access an available pool of skilled workers from companies that are downsizing and to respond to layoffs and plant closings by providing immediate on-site assistance to transition workers to their next employment as soon as possible.

**Supplemental Nutrition & Assistance Program Employment & Training (SNAP)**. Program helps 'food stamp' recipients gain skills, training, or work experience and increase their ability to obtain regular employment.

**TANF/Choices**. Program offers job preparation and educational services required for parents who depend on public assistance (Temporary Assistance for Needy Families/TANF) to transition into economic self-sufficiency through employment.

**Trade Adjustment Assistance (TAA)**. Program provides job training and employment services to workers who have lost their jobs due to the effects of international trade.

**Wagner-Peyser**. Federal legislation that established the 'Employment Service' and ancillary functions in 1935, as subsequently amended. Employer, job matching, and other related services offered at the Centers are partly funded using Wagner-Peyser grant funds.

Workforce Investment & Opportunity Act (WIOA). WIOA has three main "formula-funded" grants serving Adults, Dislocated Workers, and Youth. However, other smaller grants are funded through WIOA, such as Rapid Response and Trade Adjustment Assistance (TAA).

WIOA funds also can be used for Incumbent Worker and Customized Training, both of which only require 'basic' WIOA eligibility (e.g., being eligible to work in the U.S., being employed and, for males, being registered in Selective Service). The following three grants do have additional eligibility requirements which individuals must meet for funding.

**WIOA Adult**. Program serves economically disadvantaged adults assisting them in obtaining the skills needed to obtain, retain, and/or advance in employment.

**WIOA DW**. Program serves individuals who have lost their jobs as a result of a layoff or closure (e.g., at no fault of their own). Program assists dislocated workers in returning to the workforce as quickly as possible.

**WIOA Youth**. Program serves in-school and out-of-school youth ages 16-24 supporting them so they may enter into or complete educational/training opportunities, so they may gain the skills and credentials needed to obtain and retain employment.

#### **Special Grants/Projects**

Special Grants/Projects are those that WSA competes for (e.g., these are not like the "formula-funded grants" that TWC awards WSA). Rather, WSA writes a proposal to request and/or compete for funding, be this on our own and/or with partners.

**Externship for Teachers**. Grant available by TWC to outreach/collaborate with employers and Independent School Districts (ISDs) to provide externships for middle school and/or high school teachers, schools, counselors, and school administrators. WSA assists in the development and submits a proposal in partnership with the Alamo STEM Workforce Coalition (ASWC). ASWC is comprised of the Alliance for Technology Education in Applied Math and Science (ATEAMS), the Education Service Center 20 (ESC-20), SA Works, UTSA, and C2 GPS. The project requires matching funds (e.g., non-federal funds put in by the partners and/or private donors).

**High Demand Job Training Program**. WIOA funds that aim to address skill gaps that support talent pipelines that help meet industry needs, for example, for the purchasing of instrumentation, tools, and/or equipment. These must be done in collaboration between Boards and Economic Development Corporations (EDCs). Partners with whom WSA has collaborated include Alamo Colleges, Seguin EDC, and New Braunfels IDC (e.g., recent grant focused on building capacity with CNC machining technology and training).

#### **Workforce Commission Initiatives (WCI)**

WCIs are grant awards issued to Boards by TWC to fund specific project initiatives. The focus and timeframes of these grants vary. These initiatives support the delivery of services to workers and employers and help fund projects that strengthen and add value to the delivery system. The following are some examples.

**Red, White, and You!** Employment Service (ES) funds to support the job fair event for Veterans.

**Career in Texas Industries/Youth Career Fair Events**. TANF funds that support Career in Texas Industries or Youth Career events for middle school, high school, and postsecondary students. Events aim at promoting exploration of career opportunities including

understanding pathways to in-demand careers, networking, internships, and other applied learning opportunities. This year's focus is on a Career Pathway Readiness Mini-Summit to include school Administrators, Counselors & Teachers, Parents, Students, and Workforce Development professionals with individual tracks and which is scheduled for September.

**Texas Veterans Leadership Program**. Utilize ES funds to support TWC's Texas Veterans Leadership Program (TVLP) staff. The Board shall ensure Agency TVLP staff is provided access to and use of common equipment, software or hardware platforms, consumables, and telecommunications networks in shared facilities. The Board may acquire goods or services needed to support the Agency's TVLP staff.

**Child Care Quality Conference**. Utilize CCDF funds to cover travel costs to the TWC Child Care Quality Conference.

**Foster Care Youth Conference**. Utilize TANF funds to cover travel costs to the Foster Care Youth Conference.

**Military Family Support Pilot Program**. Program designed to better meet the needs of military spouses entering the job market at military installations.

#### **Fee-for-Service Grants**

TWC has begun issuing funding for Vocational Rehabilitation Services (VRS). These funds aim at ensuring that Texas effectively prepares students with disabilities to obtain competitive and integrated employment through participation in employability skills and work readiness training, career exploration activities, work experience, postsecondary education, and other activities.

**Summer Earn & Learn (SEAL)**. Includes work readiness training and paid work experience during the summer for students with disabilities.

**Student HireAbility Navigator Project**. Funding for two positions to serve as resources in the WDA to support, expand, and enhance the provision of pre-employment transition services to students with disabilities who are in the early phases of preparing for transition to postsecondary education and employment.

**Paid Work Experience Services**. Boards partner with TWC-Vocational Rehabilitation Division (TWC-VR) to pay wages and associated taxes and fees so customers with disabilities can engage in paid work experiences.

#### **Other TWC Grants**

TWC sometimes may issue grants to Boards that are not tied to Workforce Initiatives.

**Reemployment Services and Eligibility Assessment (RESEA)**. Grant programs funded by Title I of WIOA and the federal-state Unemployment Insurance (UI) program are required partners in a comprehensive, integrated workforce system. This program targets claimants who are most likely to exhaust benefits and be in need of reemployment services.

# Information about the data

This weekly report includes the Alamo region's 13 counties of Atascosa, Bandera, Bexar, Comal, Frio, Gillespie, Guadalupe, Karnes, Kendall, Kerr, McMullen, Medina, and Wilson.

The data are intended to support reemployment and general analysis – and may not perfectly align with federal Unemployment Claim information.

Boards are determined by zip code of record, which is how the UI system assigns the Board. There will be cases where the zip code was incorrectly entered into the system, including claimants not living in the Board area.

Summary information will vary depending on how the data are aggregated.

This report uses Texas
Workforce Commission
(TWC) claimant data and ad
hoc generated data.

The table reports estimated impacts of COVID-19 on industry based on UI Claimant activity. Over half (57.9%) of employers have had layoffs. There are about 4.3 claimants per job posting), and the estimated impact on jobs in 2020 is on average at 23.9%. We could not calculate employers with layoffs in Mining – the information conflicted with total employers reported.

A newly released TWC dataset was used to identify claimants by County of residence.

County industry information is now based on county of residence and not the ES Office were the claim was filed as was previously reported.

Claimants that file multiple claims can and do lose jobs from different industries — these claimants will count once for each industry they filed a claim for.

We previously excluded reporting the number of claimants missing industry information but are now including these.

- As with industry, claimants filing multiple claims count once for each occupation.
- Because claimants file for multiple occupations and count once in each occupation that they file a claim for, the data include a total of 505,983 claimants (341,210 unique).
- The data may suggest that 48.3% of claimants may be gaining jobs in multiple occupations. They filed an initial claim for one occupation, gained a job in a different occupation, and then also lost that new job and filed an additional claim.
- The data may also suggest that gaining jobs in multiple occupations is about 16% more likely to occur than gaining jobs in multiple industries (32.3%).

#### Additional important information about the data.

- New TWC Data. TWC has worked on providing Workforce Solutions Boards with UI Claimant data. This report uses this new dataset.
- Claimants by County. This new format now uses the County of residence as provided by TWC as opposed to the county associated with the ES Offices where claimants filed their claims. By doing so, summary information for some tables and figures vary from what was previously reported particularly for County aggregate data and Industry by County.
- **Multiple Claims.** Workers may and do file multiple UI claims. Because of this, claimants may count more than once depending on how the data are aggregated. For instance, one worker may have filed two claims in different weeks for different industries and occupations the claimant will count once for each week and once for each industry and occupation.
- **Missing Information.** Many records have missing information. Thus, summary information will vary. Depending on the information that is available, for instance, aggregating by sex will show different total numbers than aggregating by race/ethnicity.
- **Slicing Data.** Every time the data are sliced using one or more characteristics, the aggregate summary information will vary and not necessarily coincide with other summary information.
- Residence and Place of Claim. Claimants can reside outside the 13-county area and file their claim(s) in a WSA ES Office. This presents a different challenge. When summarizing by county, which is based on WSA ES Office location and their respective geographic assignments, the claimant will be counted for counties in the Alamo area. If the zip code that the claimant entered, however, is not fully or partially contained by a WSA county, then we exclude those zip codes and claimants with zip codes that are outside of the area will not be counted. Thus, the total number of claimants by location, county, city, or zip code, will vary.
- Location. Summary of claimants using certain administrative boundaries, such as City Council Districts or Bexar County Commissioner Precincts, are generated through geocoding of the addresses that claimants enter when applying for UI. Because claimants enter their address, these contain errors, misspellings, and other information that prevents the address from being identified in a map. There also may be addresses that are not yet coded into the US Census database and captured by the Address Locator. The way street address and number information are entered also impact geocoding (e.g., E Travis as opposed to Travis E.). Thus, the numbers reported for these administrative boundaries will generally involve an undercount. About 90% of addresses do get geocoded so the entire set of geocoded addresses reflect an undercount of approximately 10%. Each of the smaller administrative boundaries could include 90-100% of addresses, but it is not feasible to determine a precise undercount number within that range for smaller geographical/administrative areas.

- TWC UI Claimant data.
- Sybase InfoMaker ad hoc report using vw\_claim\_instance.
- EMSI for Jobs in 2019, Avg. Wages, job postings, and similar information.
- QCEW/BLS data for employer counts by industry.
- Burning Glass for job posting information.
- ArcGIS Business Analyst for employer/business information.

### Methodology

- Counts mostly based on individuals using ssn, dob, and claim file date.
- For industry and occupation information, merged TWC data with ad hoc data using ssn, dob, and date claim was filed (involves ~3-5% margin of error).
- ArcGIS was used for geocoding of residential addresses and mapping spatial information.
- All of the analysis except the mapping was done using the R statistical software.

#### **Definitions**

- Claimants: includes all claimants regardless of type of claim or reason that the job seeker separated from the last employer that he/she had before filing.
- Claim file date: The date that the claimant filed his/her initial and/or additional UI claim.
- Automation Index: EMSI's potential automation risk based on job task content –
  derived from ONET work activities, combined with data of Frey and Osborne to
  identify risk and resilience tied to automation.

#### **MEMORANDUM**

**To:** WSA Board of Directors

From: Adrian Lopez, WSA CEO

Presented by: Adrian Lopez

**Date:** March 26, 2021

**Subject:** Procurement Diversity Program (SMWVBE)

**Summary:** The WSA Board asked the CEO to look at developing a Diversity Program to promote contracting opportunities to Small, Minority, Woman, and Veteran Owned Business Enterprises (SMWVBE). This will be a first time the WSA Board will consider and potentially approve a policy that promotes this priority.

The goals of the SMWVBE Program would be encourage Small, Minority, Women and/or Veteran Owned Business to participate in the competitive bid processes for all goods and services needed by the WSA. The objective is to increase business opportunities and to stimulate economic growth while considering diversity. The SMWVBE Program assures that qualified, certified SMWVBE vendors are considered and utilized in the procurement of all goods and services.

**Analysis:** Based on a Purchase Order report pulled from WSA fiscal database, there are currently 360 vendors that are under contract with WSA for goods and services. Because WSA does not currently have a SMWVBE Program nor policy, the first part of the development of a program is to look at existing data. Staff sent the list of vendors to the South Texas Regional Certification Agency to cross reference this data with their database. In addition, Staff downloaded Bexar County's Small Business and Entrepreneurship Department Contract and Diversity Management System. Of the 360 vendors, 31 were identified as certified a SMWVBE.

Staff understands that the data is not complete because not all WSA contracted vendors are registered with the South Texas Regional Certification Agency or other similar organizations even though they may meet the qualifications. For example, C2 Global Services that operates the WSA One Stop centers is not currently certified, even though they are 51% or more minority owned.

Staff presented to the Strategic Committee and asked for their input and suggestions. Board members suggested that in light of the incomplete data, that staff request that all current vendors self-identify and another board member suggested staff survey TWC to see what they are doing.

Staff reviewed an analyzed three current policies: City of San Antonio, Bexar County and Alamo Colleges. Based on each of the policies, staff drafted the attached draft policy as a basic framework for discussion purposes. The draft policy still needs to be vetted by legal. In addition, staff is currently surveying the other 27 workforce boards to review their policies.

The draft policy sets out basic parameters and aspirational goals. "Please note that SMWVBE participation aspirational goals are not included in the evaluation of bids or proposals for awards and nothing in this policy is to be construed to require Workforce Solutions Alamo to award a contract to any bidder other than the best value bidder as required by law and Workforce Solutions Alamo policies/procedures and funder requirements." The policy also proposes to use the first year as a baseline year to collect and refine data and to be utilized for potential future changes to the policy.

**Alternatives:** None considered at this moment.

Fiscal Impact: None

**Recommendation:** The draft policy is offered up for discussion purposes.

**Next Steps:** A new Procurement Director will be coming onboard on March 22, 2021 and she will be responsible for the completion of the policy which will be presented to the full board for approval in the June 2021 meeting.
