The Local Area Unemployment Statistics (LAUS) program produces monthly and annual employment, unemployment, and labor force data for Census regions and divisions, States, counties, metropolitan areas, and many cities.

Note: Only the actual/unadjusted series unemployment rate estimates for Texas and the US are comparable to sub-state unemployment rates. Adjusted rates are calculated by smoothing out the changes in unemployment due to the typical seasonal hiring and layoffs. Rates reported are estimates and variations in previously reported rates can occur with BLS readjustments.
