About: Ready to Work

Ready to Work is a San Antonio workforce development program funded by a 1/8-cent sales and use tax collected through December 2025. The \$200M program offers unemployed, underemployed, and under-represented residents the following benefits:

- Tuition for industry-recognized certifications, associate and bachelor's degrees aligned with targeted occupations in high-demand, well-paid careers;
- Wraparound support services and emergency assistance to ensure training completion; and
- Job placement and retention services.

Ready to Work is open to thousands of San Antonio residents who are at least 18 years old; permitted to work in the US; willing to take assessments; committed to completing the program; not currently enrolled in college; and whose household annual income is less than 250% of the federal poverty guidelines (i.e., \$33,957 for an individual, or \$69,375 for a household of four as of January 2022).

Introduction to the Catalog

This Ready to Work Approved Training Catalog is organized by industry to allow for alignment with high-demand, well-paid jobs. Program information lists training and education courses that are approved for tuition assistance through the Ready to Work program. These approved courses are aligned with targeted occupations as determined by the Workforce Solutions Alamo 2021-2024 Local Plan and by the Ready to Work Advisory Board. We encourage residents, training providers, workforce and community organizations, and employers to review and to provide continuous feedback. Not all courses will be open and available to all participants. Funding caps per participant for training include:

- Industry-Recognized Credentials Program: One-time cap of \$5,000 per participant
- Associate Degree Program: Annual cap of \$2,200 per participant/individual participant cap of \$6,600/Not available to AlamoPROMISE scholars
- Bachelor's Degree Program: Annual cap of \$4,100 per participant/individual participant cap of \$12,300/Available for participants that have earned at least 60 college credits/Not available to AlamoPROMISE scholars

Who Can List a Course or Program in the Catalog?

Public and private universities, colleges, community colleges, proprietary schools, non-profits, USDOL-registered apprenticeships, corporate training centers, adult education programs, school districts, and education service centers that are operating legally in the San Antonio Metropolitan Statistical Area (MSA) may apply to have courses and programs listed in the Catalog. An approved training provider must have all applicable licenses, be willing to complete the annual Ready to Work Training Application, and able to update the Program/Course spreadsheet quarterly. Please contact rtw.trainer@sanantonio.gov for more information.

Approved Training Providers in Alpha Order

1. 100 Black Men of San Antonio, Inc.
2. ACD Continuing Education
3. ACD Northeast Lakeview College
4. ACD Northwest Vista College
5. ACD Palo Alto College
6. ACD San Antonio College
7. ACD St. Philips College
8. ACI Learning
9. Alamo Truck Driver Training
10. Beldon Roofing
11. Cavalry Training
12. Codeup, LLC
13. College of Biomedical Equipment Technology
14. Concorde Career College
15. Cybur Inc.
16. Dental Assisting School of San Antonio North
17. Dynamic Advancement, LLC
18. edOpp Solutions, LLC
19. Education Service Center, Region 20
20. Family Service Association of San Antonio Inc.
21. Galen College of Nursing
22. Goodwill Industries of San Antonio/Good Careers Academy
23. Hallmark University
24. I.C.C.S Academy
25. Lamson Institute
26. Lone Star Construction Trades Training
27. MedCerts
28. My All Things Educational, LLC
29. National Education Foundation
30. New Apprenticeship Inc.
31. OHP Living Heritage Trades Academy
32. Operation Total Leadership
33. Partners In Progress
34. Plumbing-Heating-Cooling Contractors/PHHC
35. Quest College
36. QuickStart Learning, Inc./QS Academy, Inc
37. Restore Education
38. Roadmaster Drivers School of San Antonio, Inc./Roadmaster
39. SAGE Truck Driving School LLC
40. San Antonio Food Bank
41. South Texas Vocational Institute SA
42. Southern Careers Institute/SCI
43. St. Mary's University-San Antonio
44. Suit Up! The World LLC/SUIT UP!
45. Texas A&M University-San Antonio
46. Texas State University
47. Texas Tech University
48. The College of Health Care Professions
49. The Institute of Allied Healthcare
50. The University of Texas at San Antonio/UTSA
51. United Training Academy
52. University of the Incarnate Word
53. University of Texas Health San Antonio/UTHSC
54. Weston Distance Learning, Inc./U.S. Career Institute (USCI)

Note: Only courses and programs offered by these providers and that are aligned to the Ready to Work Target Industries and Occupations are eligible for tuition assistance. New Training Providers and program offerings will be added quarterly.

Target Occupations Aligned to Standard Occupational Classification (SOC)

Aerospace/Architecture/Construction/Manufacturing/Oil and Gas/Energy/Utilities/Trades

49-3011	Aircraft Mechanics and Service Technicians Aircraft Maintenance Technician (Aircraft Maintenance Tech), Aircraft Mechanic, Aircraft Restorer, Aircraft Technician, Airframe and Powerplant Mechanic (A and P Mechanic), Aviation Maintenance Technician (AMT), Aviation Mechanic, Helicopter Mechanic
49-3023	Automotive Service Technicians and Mechanics Automobile Mechanic (Auto Mechanic), Automotive Drivability Technician (Auto Drivability Tech), Automotive Mechanic (Auto Mechanic), Automotive Service Technician (Auto Service Tech), Heavy Line Technician, Lube Technician, Master Automotive Technician (Master Auto Tech), Mechanic, Quick Service Technician (Quick Service Tech), Service Technician (Service Tech)
49-3031	Bus and Truck Mechanics and Diesel Engine Specialists Bus Mechanic, Diesel Mechanic, Diesel Technician, Fleet Mechanic, General Repair Mechanic, Mechanic, Service Technician, Trailer Mechanic, Transit Mechanic, Truck Mechanic
47-2031	Carpenters Assembler, Bridge Carpenter, Bridge Repair Crew Person, Cabinet Maker, Carpenter, Concrete Carpenter, Construction Worker, Form Carpenter, Framers, Rough Carpenter
47-2111	Electricians Control Electrician, Electrician, Industrial Electrician, Inside Wireman, Maintenance Electrician, Mechanical Trades Specialist, Wireman
47-1011	First-Line Supervisors of Construction Trades and Extraction Workers Coal Mine Production Foreman, Construction Foreman, Construction Supervisor, Electrical Supervisor, Field Operations Supervisor, Field Supervisor, Insulation Foreman, Roustabout Field Supervisor, Sheet Metal Foreman, Site Superintendent
51-1011	First-Line Supervisors of Production and Operating Workers Assembly Supervisor, Line Supervisor, Manufacturing Supervisor, Molding Supervisor, Plant Supervisor, Production Manager, Production Supervisor, Quality Assurance Supervisor (QA Supervisor)
49-9021	Heating, Air Conditioning, and Refrigeration Mechanics and Installers A/C Tech (Air Conditioning Technician); HVAC Installer (Heating, Ventilation, Air Conditioning Installer); HVAC Mechanic (Heating, Ventilation, Air Conditioning Mechanic); HVAC Specialist (Heating, Ventilation, and Air Conditioning Specialist); Refrigeration Mechanic; Refrigeration Operator; Refrigeration Technician (Refrigeration Tech); Service Technician (Service Tech); Systems Mechanic; Transportation Refrigeration Technician (Transportation Refrigeration Tech)

17-2112	Industrial Engineers Continuous Improvement Engineer, Engineer, Facilities Engineer, Industrial Engineer, Operations Engineer, Plant Engineer, Process Engineer, Project Engineer, Quality Engineer, Research and Development Engineer (R and D Engineer)
17-3026	Industrial Engineering Technologists and Technicians Business Process Analyst, Engineering Technician, Industrial Engineering Analyst, Industrial Engineering Technician, Manufacturing Coordinator, Manufacturing Technology Analyst, Quality Control Engineering Technician (QC Engineering Technician), Quality Management Coordinator, Quality Technician, Service Technician
49-9041	Industrial Machinery Mechanics Industrial Machinery Mechanic, Industrial Mechanic, Loom Fixer, Loom Technician, Machine Adjuster, Machine Mechanic, Maintenance Technician, Mechanic, Overhauler, Sewing Machine Mechanic
51-4041	Machinists CNC Machinist (Computer Numeric Controlled Machinist), CNC Machinist (Computer Numerically Controlled Machinist), Gear Machinist, Machine Repair Person, Machinist, Maintenance Machinist, Manual Lathe Machinist, Production Machinist, Tool Room Machinist
47-2073	Operating Engineers and Other Construction Equipment Operators Back Hoe Operator, Engineering Equipment Operator, Equipment Operator (EO), Forklift Operator, Heavy Equipment Operator, Hot Mix Asphalt Operator, Machine Operator, Motor Grader Operator, Operating Engineer, Track Hoe Operator
47-2152	Plumbers, Pipefitters, and Steamfitters Drain Technician, Fire Sprinkler Service Technician, Pipe Fitter, Pipe Welder, Pipefitter, Plumber, Residential Plumber, Service Plumber, Sprinkler Fitter, Steamfitter
43-5061	Production, Planning, and Expediting Clerks Materials Coordinator, Materials Planner, Planner, Production Assistant, Production Clerk, Production Controller, Production Planner, Production Scheduler, Scheduler
47-2181	Roofers Commercial Roofer, Industrial Roofer, Metal Roofing Mechanic, Residential Roofer, Roof Mechanic, Roof Service Technician, Roofer, Roofing Technician, Sheet Metal Roofer
41-4011	Sales Representatives, Wholesale and Manufacturing, Technical and Scientific Products Inside Sales Representative, Marketing Representative, Sales Representative
47-2211	Sheet Metal Workers Field Installer; HVAC Sheet Metal Installer (Heating, Ventilation, and Air Conditioning Sheet Metal Installer); Sheet Metal Fabricator; Sheet Metal Installer; Sheet Metal Layout Mechanic; Sheet Metal Mechanic; Sheet Metal Worker

51-4121 Welders, Cutters, Solderers, and Brazers
 Aluminum Welder, Assembly Line Brazer, Brazer, Fabrication Welder, Fabricator,
 Maintenance Welder, Solderer, Sub Arc Operator, Welder, Wirer

Education/Professional Services/Other

15-2051 Data Scientists and Business Intelligence Analyst
 Business Intelligence Analyst, Business Intelligence Analyst, Competitive Intelligence Analyst, Data Analyst, Intelligence Analyst, Market Intelligence Analyst, Market Intelligence Consultant, Strategic Business and Technology Intelligence Consultant, Strategist, Clinical Data Managers, Clinical Informatics Manager, Data Deliverables Manager, Data Management Manager

25-2021 Elementary School Teachers, Except Special Education
 Art Teacher, Classroom Teacher, Educator, Elementary Education Teacher, Elementary School Teacher, Elementary Teacher, Teacher

13-1071 Human Resources Specialists
 Corporate Recruiter, Employment Representative, HR Analyst (Human Resources Analyst), HR Coordinator (Human Resources Coordinator), HR Generalist (Human Resources Generalist), Human Resources Representative (HR Rep), Human Resources Specialist (HR Specialist), Personnel Analyst, Personnel Officer, Recruiter

13-1111 Management Analysts
 Administrative Analyst, Business Analyst, Employment Programs Analyst, Management Analyst, Management Consultant, Organizational Development Consultant, Program Management Analyst, Quality Control Analyst

13-1161 Market Research Analysts and Marketing Specialists
 Business Development Specialist, Communications Specialist, Demographic Analyst, Market Analyst, Market Research Analyst, Market Research Consultant, Market Research Specialist, Market Researcher

25-2022 Middle School Teachers, Except Special and Career/Technical Education
 English Teacher, Language Arts Teacher, Mathematics Teacher (Math Teacher), Middle School Teacher, Music Teacher, Physical Education Teacher (PE Teacher), Reading Teacher, Science Teacher, Social Studies Teacher, Teacher

33-3051 Police and Sheriff's Patrol Officers
 Deputy, Deputy Sheriff, Deputy Sheriff (Generalist)-Bailiff, Law Enforcement Officer, Patrol Officer, Peace Officer, Police Officer, Police Patrol Officer, Public Safety Officer, State Trooper

13-1151 Training and Development Specialists
 Computer Training Specialist, Corporate Trainer, E-Learning Developer, Job Training Specialist, Management Development Specialist, Technical Trainer, Trainer, Training Specialist

Finance/Insurance

- 13-2011 Accountants and Auditors**
Accountant, Accounting Officer, Audit Partner, Auditor, Certified Public Accountant (CPA), Cost Accountant, Financial Auditor, General Accountant, Internal Auditor, Revenue Tax Specialist
- 43-3031 Bookkeeping, Accounting, and Auditing Clerks**
Account Clerk, Accounting Assistant, Accounting Associate, Accounting Clerk, Accounting Specialist, Accounting Technician, Accounts Payable Clerk, Accounts Payable Specialist, Accounts Payables Clerk, Accounts Receivable Clerk
- 13-1031 Claims Adjusters, Examiners, and Investigators**
Claim Representative, Claims Adjuster, Claims Analyst, Claims Examiner, Claims Representative, Claims Specialist, Corporate Claims Examiner, General Adjuster, Home Office Claim Specialist, Litigation Claim Representative
- 43-4051 Customer Service Representatives**
Account Representative, Call Center Representative, Client Services Representative, Customer Care Representative (CCR), Customer Service Agent, Customer Service Representative (Customer Service Rep), Customer Service Specialist, Member Services Representative, Sales Facilitator
- 11-3031 Financial Managers**
Banking Center Manager (BCM), Branch Manager, Credit Administration Manager, Financial Center Manager, Regional Manager, Service Center Manager
- 13-2052 Personal Finance Advisors**
Certified Financial Planner (CFP), Financial Advisor, Financial Consultant, Financial Counselor, Financial Planner, Investment Advisor, Portfolio Manager, Wealth Advisor
- 41-3031 Securities, Commodities, and Financial Services Sales Agents**
Broker, Corporate Bond Trader, Financial Consultant, Financial Services Representative, Investment Advisor, Investment Representative, Investment Specialist, Investment Trader, Personal Banker, Stockbroker

Healthcare

- 29-2031 Cardiovascular Technologists and Technicians**
Cardiac Catheterization Laboratory Technologist, Cardiac Catheterization Technician, Cardiac Technician, Cardiology Technician, Cardiopulmonary Technician, Cardiovascular Technician, Cardiovascular Technologist (CVT), Electrocardiogram Technician (EKG Tech), Registered Cardiovascular Invasive Specialist (RCIS)
- 35-1011 Chefs and Head Cooks**
Banquet Chef, Certified Executive Chef (CEC), Chef, Cook, Executive Chef (Ex Chef), Executive Sous Chef, Head Cook, Kitchen Manager, Pastry Chef, Sous Chef

31-9091	Dental Assistants Certified Dental Assistant (CDA), Certified Registered Dental Assistant, Dental Assistant (DA), Expanded Dental Assistant, Expanded Duty Dental Assistant (EDDA), Expanded Functions Dental Assistant (EFDA), Oral Surgery Assistant, Orthodontic Assistant (Ortho Assistant), Registered Dental Assistant (RDA), Surgical Dental Assistant
29-2032	Diagnostic Medical Sonographers Cardiac Sonographer, Diagnostic Medical Sonographer, Medical Sonographer, Registered Diagnostic Medical Sonographer (RDMS), Sonographer, Staff Sonographer, Ultrasonographer, Ultrasound Technician (Ultrasound Tech), Ultrasound Technologist (Ultrasound Tech)
29-1031	Dietitians and Nutritionists Clinical Dietician, Clinical Dietitian, Clinical Nutritionist, Dietitian, Nutritionist, Oncology Dietitian, Outpatient Dietitian, Registered Dietician, Registered Dietitian, Renal Dietitian
29-9021	Health Information Technologists and Medical Registrars Medical Records Analyst, Medical Records Director
29-2061	Licensed Practical and Licensed Vocational Nurses Charge Nurse, Clinic Licensed Practical Nurse (Clinic LPN), Clinic Nurse, Home Health Licensed Practical Nurse (Home Health LPN), Licensed Vocational Nurse (LVN), Office Nurse, Pediatric LPN (Pediatric Licensed Practical Nurse), Private Duty Nurse, Radiation Oncology Nurse, Triage LPN (Triage Licensed Practical Nurse)
29-2035	Magnetic Resonance Imaging Technologists Magnetic Resonance Imaging Coordinator (MRI Coordinator), Magnetic Resonance Imaging Quality Assurance Coordinator (MRI Quality Assurance Coordinator), MRI Specialist (Magnetic Resonance Imaging Specialist), MRI Technologist (Magnetic Resonance Imaging Technologist)
31-9092	Medical Assistants Certified Medical Assistant (CMA), Chiropractor Assistant, Clinical Medical Assistant, Doctor's Assistant, Health Assistant, Ophthalmic Assistant, Ophthalmological Assistant, Optometric Assistant, Outpatient Surgery Assistant, Registered Medical Assistant (RMA)
29-2036	Medical Dosimetrists This title represents an occupation for which data collection is currently underway.
29-2072	Medical Records Specialist Coder, Health Information Clerk, Health Information Specialist, Health Information Technician (Health Information Tech), Medical Records Clerk, Medical Records Coordinator, Medical Records Technician (Medical Records Tech), Registered Health Information Technician (RHIT)

- 43-6013 Medical Secretaries and Administrative Assistants**
Clinic Office Assistant, Front Desk Receptionist, Medical Office Specialist, Medical Receptionist, Medical Secretary, Physician Office Specialist, Secretary, Unit Clerk, Unit Support Representative, Ward Clerk
- 31-2011 Occupational Therapy Assistants**
Acute Care Occupational Therapy Assistant, Certified Occupational Therapist Assistant (COTA), Certified Occupational Therapist Assistant/Licensed (COTA/L), Certified Occupational Therapy Assistant (COTA), Certified Occupational Therapy Assistant-Licensed (COTA-L), Licensed Certified Occupational Therapist Assistant (COTA/L), Licensed Occupational Therapy Assistant, Occupational Therapist Assistant (OTA), Occupational Therapy Assistant (OTA), School Based Certified Occupational Therapy Assistant
- 29-2052 Pharmacy Technicians**
Accredited Pharmacy Technician, Certified Pharmacy Technician (CPhT), Chemotherapy Pharmacy Technician (Chemo Pharmacy Technician), Compounding Technician, OR Pharmacy Tech (Operating Room Pharmacy Tech), RPhT (Registered Pharmacy Technician)
- 31-9097 Phlebotomists**
Lab Liaison Technician, Mobile Examiner, Patient Service Technician (PST), Phlebotomist, Phlebotomy Technician, Registered Phlebotomist
- 31-2021 Physical Therapy Assistants**
Certified Physical Therapist Assistant (CPTA), Home Care Physical Therapy Assistant, Home Health Physical Therapist Assistant, Licensed Physical Therapist Assistant (LPTA), Licensed Physical Therapy Assistant, Outpatient Physical Therapist Assistant, Per Diem Physical Therapist Assistant (Per Diem PTA), Physical Therapist Assistant (PTA), Physical Therapy Assistant (PTA)
- 29-2034 Radiologic Technologists and Technicians**
Computed Tomography Technologist (CT Technologist), Mammographer, Radiographer, Radiological Technologist, Radiology Technician (Radiology Tech), Radiology Technologist, Registered Radiographer, X-Ray Technician (X-Ray Tech), X-Ray Technologist (X-Ray Tech)
- 29-1126 Respiratory Therapists**
Cardiopulmonary Rehabilitation Respiratory Therapist, Certified Respiratory Therapist (CRT), Registered Respiratory Therapist (RRT), Respiratory Care Practitioner (RCP), Respiratory Therapist (RT), Staff Respiratory Therapist, Staff Therapist
- 29-1141 Registered Nurses**
Certified Operating Room Nurse (CNOR), Charge Nurse, Emergency Department RN (Emergency Department Registered Nurse), Oncology RN (Oncology Registered Nurse), Operating Room Registered Nurse (OR RN), Psychiatric RN (Psychiatric Registered Nurse), Relief Charge Nurse, School Nurse, Staff Nurse, Staff RN (Staff Registered Nurse)

- 29-2055 Surgical Technologists**
 Certified Surgical Technician, Certified Surgical Technologist (CST), Operating Room Surgical Technician (OR St), Operating Room Technician (OR Tech), Operating Room Technologist (OR Tech), Surgical Scrub Technician, Surgical Scrub Technologist (Surgical Scrub Tech), Surgical Technician, Surgical Technologist (Surgical Tech)

Information Technology/ Cyber Security

- 17-2061 Computer Hardware Engineers**
 Design Engineer, Engineer, Field Service Engineer, Hardware Design Engineer, Hardware Engineer, Physical Design Engineer, Project Engineer, Staff Engineer, Systems Integration Engineer
- 11-3021 Computer and Information Systems Managers**
 Application Development Director, Computing Services Director, Data Processing Manager, Information Systems Director (IS Director), Information Systems Manager (IS Manager), Information Systems Supervisor (IS Supervisor), Information Technology Director (IT Director), Information Technology Manager (IT Manager), MIS Director (Management Information Systems Director), Technical Services Manager
- 15-1241 Computer Network Architects**
 Design Engineer, Network Analyst, Network and Security Engineer, Network Consultant, Network Systems Consultant, Networking Systems and Distributed Systems Engineer, Solutions Architect, Telecommunications Analyst
- 15-1231 Computer Network Support Specialists**
 Computer Network Specialist, IT Consultant (Information Technology Consultant), Network Specialist, Network Support Specialist, Network Technical Analyst, Network Technician, Personal Computer Network Analyst, Systems Specialist
- 15-1211 Computer Systems Analysts**
 Applications Analyst, Business Systems Analyst, Computer Analyst, Computer Systems Analyst, Computer Systems Consultant, Information Systems Analyst (ISA), Information Technology Analyst (IT Analyst), System Analyst, Systems Analyst
- 15-1232 Computer User Support Specialists**
 Computer Specialist, Computer Support Specialist, Computer Technician, Desktop Support Technician, Help Desk Analyst, Help Desk Technician, Information Technology Specialist (IT Specialist), Support Specialist, Technical Support Specialist
- 15-1212 Information Security Analysts**
 Information Security Officer, Information Security Specialist, Information Systems Security Analyst, Information Systems Security Officer (ISSO), Information Technology Security Analyst (IT Security Analyst), Network Security Analyst, Security Analyst, Systems Analyst

- 15-1244 Network and Computer Systems Administrators**
Information Analyst, Information Systems Manager (IS Manager), Information Technology Specialist (IT Specialist), LAN Specialist (Local Area Network Specialist), Local Area Network Administrator (LAN Administrator), Network Administrator, Network Coordinator, Network Manager, Systems Administrator
- 15-2031 Operations Research Analysts**
Advanced Analytics Associate, Analytical Strategist, Decision Analyst, Operations Research Analyst, Optimization Analyst
- 15-1252 Software Developers**
Application Developer, Application Integration Engineer, Developer, Infrastructure Engineer, Network Engineer, Software Architect, Software Developer, Software Development Engineer, Software Engineer, Systems Engineer
- 15-1253 Software Quality Assurance Analyst and Testers**
Application Integration Engineer, Computer Consultant, Information Technology Analyst (IT Analyst), Product Assurance Engineer, Quality Assurance Analyst (QA Analyst), Software Quality Assurance Engineer (SQA Engineer), Software Quality Engineer, Software Test Engineer, Systems Engineer, Test Engineer
- 15-1255 Web Developers and Digital Interface Designers**
Technology Applications Engineer, Web Architect, Web Design Specialist, Web Designer, Web Developer, Webmaster

Transportation and Warehousing

- 13-1041 Compliance Officers**
Driver Examiner, Driver License Agent, Driver License Examiner, Examiner, License Examiner, License Registration Examiner, Licensing Analyst, Motor Vehicle Clerk, Public Service Representative (PSR), Transportation Services Representative (TSR)
- 11-1021 General and Operations Managers**
Business Manager, General Manager (GM), Operations Director, Operations Manager, Plant Superintendent, Store Manager
- 53-3032 Heavy and Tractor-Trailer Truck Drivers**
Driver, Line Haul Driver, Log Truck Driver, Over the Road Driver (OTR Driver), Production Truck Driver, Road Driver, Semi Truck Driver, Tractor Trailer Operator, Truck Driver
- 13-1081 Logisticians**
Client Services Administrator, Logistician, Production Planner, Supply Management Specialist

Program Name

Description

Advanced MIG Welding

Students will learn advanced concepts of flux cored arc welding of structural and fabricated steel products. Develop your skills in multi-pass fillet and v-groove welding. By the end of the course, you will know how to select and properly use the GMAW equipment and identify and describe shielding gases, types of metals and metal transfer and perform electrode wire selection while using the correct GMAW welding procedures

Content Marketing Manager Journey

Successful marketing is about optimizing relationships with your customers. That not only includes the value you offer them, but the value you get from them in return. Businesses apply best practices in marketing to find and better understand their customers, to inform how they can most effectively advertise, and to stand out from their competition. Content Marketing Managers can help organizations be successful in their goals by helping create and manage content to engage their customers.

This Journey is based on real-time market information from Burning Glass Technologies and focuses on the role of the Content Marketing Manager within organizations.

Accounting Services Professional

The Accounting Services program provides theoretical and practical instruction that prepares students to obtain an entry-level accounting services position. Students begin by learning the importance of accounting terms and concepts. They continue with step-by-step instruction through the entire accounting cycle. The course also provides instruction in specialized procedures used in accounts receivable and payable, merchandising accounts and tax preparation. Students learn payroll recordkeeping, as well as payroll processing procedures. Additionally, students study computerized accounting and the accounting elements of sole proprietorships, partnerships, corporations and non-profit organizations. The course culminates with practical instruction on obtaining an accounting services job. Upon completion of this course, graduates will be trained to:

- Post entries in the journal, ledger and subsidiary ledgers.
- Record bank transactions and reconcile bank accounts.
- Prepare payroll records for processing.
- Compile and organize financial information into reports, including the income statement, balance sheet, and statement of owner's equity.
- Implement GAAP procedures and policies.
- Complete Form 1040 and its supplemental forms, including Schedules A through E.
- Complete payroll-related employee tax forms, including Form W-2 and Form W-3.

Program Name	Customer Service Representative Journey
Description	Success is both an outcome and a mindset. Customer service professionals who wish to provide a truly exceptional level of customer service approach each interaction with the right mindset and attitude. Since customer needs lie at the heart of every service interaction, CSRs must be able to identify both their stated and unstated needs whether by phone, e-mail, live chat, in person, or by other methods. Customer support professionals use a combination of skills to analyze beyond the stated requirements to uncover the full spectrum of customer needs. This Journey is based on real-time market information from Burning Glass Technologies and focuses on the role of the Customer Service Representative (CSR) within organizations.

Agile for Software Development

In this Agile for Software Development Proficiency Journey, you will start at the grassroots by acquiring a general awareness of Agile and Scrum concepts to transition from traditional ways of software development. In the second track, you will dive deep into the Agile best practices and principles to improve software requirements and design work processes. You will continue your journey in the third track by exploring how Agile methodologies are implemented in the development and testing phases of software development. Finally, in the fourth track, you will learn to adopt best practices to build an Agile mindset and to scale Agile to suit larger organizational goals. In a nutshell, the journey provides a strong foundation to help key performers and leaders in software development make well-informed decisions when it comes to embracing Agile practices or improving existing processes.

Data Analysis with R

R programming language is widely used for statistical analysis and modelling and data mining. In this Skillsoft Aspire journey, you will start by exploring the basics of R language, followed by applying the programming structures. You will then learn data analysis in R by exploring and working with Datasets in R and learn very important statistical concepts and how to apply them while analyzing and modelling your data in R.

Introduction to Machine Learning Bootcamp

This course is designed to introduce you to the machine learning basics using python and help you build industry level use case for financial banks - predicting fraud in credit card transaction. This course will help you learn most popular python libraries like scikit learn, pandas, numpy and many more along with theoretical concepts like supervised learning, model building and optimisation, feature engineering and pre-processing. The course will also cover basic machine learning algorithms like Linear Regression, Logistic Regression, Decision Trees and Random Forest. This course will benefit you if you are new to machine learning and python, or if you are coming from any IT vertical or other cross functional areas like marketing, finance, human resource, sales etc and looking forward to enhance your skills (make sure to take pre-requisite courses before attending; Machine Learning Introduction, Data Science Overview, and Python - Introduction to Pandas and DataFrames). The course will be 4 hours per day for 4 days and will include combination of theory lectures, virtual games, digital whiteboard, live quizzes, industry information, python hand-on demos, assignments, future reference and notes. The course includes building live end to end machine learning use case from financial domain where you will experience everything from data processing, feature engineering, model building, model optimisation and deployment using various python libraries and core machine learning concepts to help banks predict transactional fraud model that can save them million of dollars.

Machine Learning in Python Bootcamp

Welcome to the Machine Learning in Python Bootcamp channel! Learn how to mine data and uncover patterns within it during this course. Clustering is a foundational unsupervised machine learning technique that is key to discovering latent patterns and trends. By the end of this course, attendees will learn to identify use cases where clustering is relevant, use Python to perform clustering on real-world and evaluate the results. Attendees must be comfortable using Python to manipulate data and must know how to create basic visualizations and import data. Prior to attending the live sessions, please install Anaconda.

Certified HVACR Technician

HVACR Technician Program Students get an introduction to the field of HVACR including theories, regulations, systems, procedures, safety and equipment.

The program trains students to:

- Apply mathematical processes and use of formulas necessary for design, evaluation and installation of HVACR systems.
- Explain usage of HVACR materials, equipment and tools needed for installation and diagnostic tasks.
- Describe safety procedures and established regulations related to workplace and job requirements.
- Understand the refrigeration cycle, gas laws and properties of refrigerants required for diagnostic and systems design.
- Discuss how to use drawings, technical diagrams and specification charts required for installation and repair of HVACR systems.
- Understand theories and processes for evaluating and installing electrical systems and controls.
- Describe procedures for installing, inspecting, testing, repairing and maintaining HVACR systems.
- Explain procedures for following government regulations regarding the conservation, recovery and recycling of refrigerants

Educator Prep – Tract 1 – Elem/Middle School

The Alamo Colleges Educator Preparation Program is an alternative teacher certification program within the Alamo Colleges District. Our program prepares candidates to become certified teachers in the state of Texas. Alternative certification is a non-traditional route to teacher certification that allows one to teach in the classroom. It requires candidates to already hold a bachelor's degree from an accredited institution of higher education. Still, there are Career and Technical Education options, such as in Health Science 6-12 and Trade and Industrial (T&I) Education 6-12, which require licensure, a set amount of full-time wage-earning experience, and at least a high school diploma/associate degree.

Human Resource Associate Professional

Get the latest updated Human Resource (HR) information! Learn how to provide organization and management in human resources. As a human resource management professional, you are responsible for the recruitment and management of the people who work in your organization. You provide direction for the managers and people, as well. It's all part of being in human resources. This certificate series of modular courses are designed for functions typically found in the contemporary HR department of small to midsize companies. The goal is to provide you with the practical information needed to perform the daily tasks required by today's HR professional. Legal issues common to all HR functions are identified, addressed and discussed.

Bookkeeping Specialist, Level 2 Certificate

The Bookkeeping Specialist Level 2 Certificate introduces students to basic steps of the accounting cycle, industry standard accounting system software, spreadsheet development and payroll accounting for candidates seeking an entry level bookkeeping position. Emphasis is on a small business setting and workforce preparation skills. Note: This Certificate is not for Accounting majors as it does not transfer to a 4 year Bachelor of Business Administration (BBA) degree in Accounting. Students seeking a 4 year BBA degree in Accounting must follow the Associate of Arts (AA) degree, Business Administration and Management FOS: Pre-Major Accounting. Instead, with this Certificate students may pursue the Bookkeeping Specialist, AAS degree to transfer to a BAAS workforce degree with Business Concentration, not Accounting major at Texas A&M SA.

Description

Insurance Claims Adjuster

The Insurance Claims Adjuster program provides theoretical and practical instruction that trains students for entry-level employment in the claims adjustment industry. Students explore the ins and outs of the different types and policies of insurance: accident and health, life, property, liability, catastrophe and automobile. They apply communication and negotiation skills to the steps in the claims adjustment process and use proper protocol to contact policyholders and conduct investigations, as well as interview witnesses. Students relate knowledge of legal and ethical issues to claims adjustment, and use math and computer skills to verify bills and estimates, as well as negotiate and calculate settlements. Additionally, students gain grammar, spelling and punctuation expertise, which allows them to write concise reports as claims adjusters.

- Apply theoretical instruction and practical skills that enable them to obtain entry-level, insurance claims adjuster positions.
- Explain different types and policies of insurance: accident and health, life, property, liability, catastrophe and automobile.
- Apply communication and negotiation skills to the steps in the claims adjustment process and use proper protocol to contact policyholders and conduct investigations, as well as interview witnesses.
- Relate knowledge of legal and ethical issues to claims adjustment.
- Apply math and computer skills to verify bills and estimates, as well as negotiate and calculate settlements.
- Write concise reports as claims adjusters.

Certified Dental Assistant

The Dental Assisting Program trains students with the necessary skills to professionally perform many dental assistant duties. Students learn to perform front office administrative duties, including scheduling appointments, maintaining patient charts and claims processing procedures. Students discover how to adhere to federal safety, security and privacy regulations, as well as accurately maintain and handle dental records. Also, students access virtual labs to become familiar with various dental procedures. Dental Assisting Course provides graduates with theoretical instruction and practical skills that prepare students to obtain entry-level dental assistant positions in a dentist's office.

The coursework trains students to:

- Apply the necessary skills to professionally perform many dental assistant duties and obtain entry-level employment in the field.
- Perform front office administrative duties, including scheduling appointments, maintaining patient charts and claims processing procedures.
- Adhere to federal safety, security and privacy regulations, as well as accurately maintain and handle dental records.

Description

Certified Electronic Health Records Specialist

The Electronic Medical Records Specialist Program provides students with a firm foundation in electronic record principles and practices, preparing them for entry-level positions in the field. Students begin with an introduction to the world of healthcare, and discover the terms relevant to health insurance today. The course offers a firm foundation in medical terminology. Students also explore various types of medical records and record management. The course ensures students have a good understanding of the process to release medical records and when consent is necessary. This course stresses the importance of healthcare law, as well as physician responsibilities. The basics of coding and

billing is also covered in the course. Students work with practice management software to obtain hands-on skills. Finally, the course concludes with statistical calculations, which include census data, bed occupancy and length of stay, as well as morbidity and mortality rates. Graduates of this course will be trained in the theoretical instruction and practical skills that prepare students to gain entry-level EMR specialist positions in a variety of medical settings, such as physicians' offices, ambulatory care centers and billing services. The coursework trains students to:

- Use medical terminology to communicate with other medical professionals.
- Understand the responsibilities of charting, including the process of auditing, releasing, retaining and destroying medical records.
- Adhere to compliance as it pertains to medical records, and protecting the confidentiality of patient's records.
- Assist in the coding and billing aspects by understanding the tools for coding and the process of reimbursement.
- Demonstrate the skills needed to create and work with patient records using a practice management software.
- Apply calculations to statistics obtained from reports to create meaningful values.

Program Name

Description

Certified Medical Billing and Coding Specialist

The Medical Coding and Billing Program provides practical instruction on researching and assigning diagnostic and procedural codes to medical records, as well as processing medical bills. To bill effectively, students explore the insurance world, including both private and government programs. They also learn how insurance companies interact with medical-service providers through forms, follow-up letters and claims processing. Students gain competency in ICD-10-CM and CPT coding procedures. The course provides students with a solid foundation of ethics and problem-solving, medical terminology, human anatomy and physiology and common disease processes. Students apply their knowledge using realworld scenarios and medical records. Students examine how to work with doctors, hospitals and other healthcare providers to ensure they receive fair and accurate compensation for their services.

- Describe the roles, average day, personal qualities and desirable character traits of various healthcare professionals.
- Demonstrate professionalism through acceptable attitude, organization and time management skills, and attire as appropriate to a healthcare setting.
- Employ legal and ethical standards related to patient confidentiality within the healthcare community environment.
- Define terms showing a fundamental understanding of the human body and medical terminology as they apply to medical billing and coding.
- Describe the history and development, organization and use of various diagnostic and procedural manuals and how they apply to insurance.
- Describe the characteristics of the types of healthcare insurance and explain the differences between them.
- Appropriately perform medical claims submissions applying standard payment methodologies and forms.
- Explain the terms used to describe parts of a medical record and explanation of benefits.
- Apply industry-standard payment methodologies to complete forms for primary and secondary insurance and create medical bills for patients.
- Use verbal, non-verbal and written communications skills demonstrating an understanding of theory and practical skills to perform medical billing and coding tasks in a healthcare setting.
- Classify and assign diagnostic and procedure codes to medical records using ICD-10-CM and CPT coding systems as used in a variety of settings.

Human Patient Simulation Technology (OSA)

Human Patient Simulation is becoming the standard at colleges, universities, health science center, R&D, and clinical training for all levels of medical professionals; from Medical Assistants to Surgical Residents. HPS's can assist practitioners to perform procedures such as intubation, pericardiocentesis, as well as improving clinical judgment by providing a more realistic scenario. The emergence of this new healthcare technology teaching tool requires moderate to high level technical training depending on the fidelity of the human patient simulator. Biomedical Engineering technicians and clinical engineers are professionals with the right combination of interdisciplinary skills to tackle such an emerging healthcare technology. The courses outlined will in provide the basics of theory and hands on maintenance, programming, and minor repair of human patient simulators that are applicable to many different human patient simulator manufacturers.

Limited Medical Radiologic Technologist with Medical Assisting Skills Certificate Program

Limited Medical Radiologic Technologist with Medical Assisting Skills - Certificate Program students are trained to perform routine diagnostic X-ray exams of the skull, extremities and vertebral column. The emphasis of training is on the anatomy of the human body and the proper positioning of the patient to achieve a quality radiograph. Training also includes the history, theory and application of diagnostic X-rays and their effect upon the human body. Students learn the theory of radiation production and the proper procedures and techniques to reduce radiation exposure to the patient and themselves. Students will also learn the operation, maintenance and quality control of the radiology equipment. Students learn medical terminology, professionalism, medical office skills to include patient triage, patient care, assisting physicians, basic phlebotomy technique, and basic pharmacology. These skills will prepare the student to become an effective member of the

health care team and provide quality care to their patients. Graduates will have obtained the knowledge and skills necessary to pass the state licensing exam and find employment in a variety of medical clinics and physician's offices. The program objectives are achieved through classroom and clinical hands on training as well as professional development.

Program Name**Description****Medical Transcriptionist**

The Medical Transcription and Editing Program contains theoretical and practical instruction that prepare students to transcribe and edit medical reports. Students will be trained in specific medical report formats, punctuation and medical terminology used in the field. From that solid base of knowledge, students then prepare actual medical reports that meet professional standards under the direction of qualified instructors. Students who complete the course will have solid medical transcription and editing training, including pathology and radiology specialties. The documents that students transcribe and edit clearly demonstrate competency to perform entry-level, medical transcription work. Describe the roles, average day, personal qualities, and desirable character traits of various healthcare professionals.

Description

General Operations Business Management (GOBM)

The General Operations and Business Manager (GOBM) program is a comprehensive program designed to teach students the skills and abilities essential to general operations and business management. Graduates of this program will be able to plan, direct, or coordinate the operations of public or private sector organizations, overseeing multiple departments or locations. The skills learned in this program will prepare them for formulating policies, managing daily operations, and planning the use of materials and human resources. Graduates will complete a wide range of coursework critical to successful business operation to include operations management fundamentals, customer relationship management (CRM), accounting

fundamentals and HR topic areas such as diversity and inclusion, OSHA, and succession planning. This program also prepares students to certify in the requirements for ISO 9001, the international standard for quality management. The program concludes with a course in the predominate business collaboration tool (Microsoft Outlook) and a 40-hour capstone which prepares them for the Project Management Institute's Certified Associate in Project Management (CAPM) certification. This program is meant for business professionals who already have 3-5 years of professional experience, preferably in a managerial setting and is NOT an entry level course.

Program Name**Description****Power Generation and Alternative Energy A.A.S.**

The Power Generation and Alternative Energy program provides students with skills and knowledge required to work in the electrical power generation industry. Students are introduced to conventional coal and natural gas powered generation as well as renewable technologies such as Wind, Solar Power, Hydrogen, and Landfill Gas. Smart Grid and Energy Storage topics are also covered. The program offers an Occupational Skills Award, A Certificate as well as the A.A.S degree. Also, offered is a Practicum (Internship) with local Industry Partners. The Department is a NABCEP (North American Board of Energy Practitioners) testing center.

Description

Bookkeeping Specialist, A.A.S.

The Bookkeeping Specialist, AAS introduces students to basic steps of the accounting cycle, industry standard accounting system software, spreadsheet development and payroll accounting for candidates seeking an entry level bookkeeping position. Emphasis is on a small business setting and workforce preparation skills. Note: The AAS degree is not for Accounting majors. This AAS occupational degree does not transfer to a 4 year Bachelor of Business Administration (BBA) degree in Accounting. Students seeking a 4 year BBA degree in Accounting must follow Associate of Arts (AA) degree, Business Administration: Pre-Major Accounting. Instead, the AAS transfers to a BAAS workforce credit degree with Business Concentration, not Accounting major at Texas A&M SA.

Description

Biomedical Engineering Technology, A.A.S.

The Biomedical Engineering Technology will prepare associate degree graduates with the knowledge, techniques, skills, and use of modern equipment in healthcare engineering technology. The program prepares the student to work in equipment planning, purchasing, installation, maintenance, troubleshooting, and on-call technical support of medical device technology and systems, including medical devices with Local Area Network (LAN), Wide Area Network (WAN), WiFi, and Bluetooth capability. The curriculum is focused on the fundamentals of electronics, anatomy & physiology, medical equipment operation & troubleshooting, healthcare safety, and clinical information systems. The associate degree curriculum will prepare graduates to have competency in the following curricular areas:

- The interaction of medical equipment with the human body.
- The principles of medical equipment, safety and operational tests, the use of test results in order to improve processes and ensure that equipment is functioning properly and safely with appropriate documentation.
- Information technology principles applied to medical equipment systems, including data security and privacy standards.
- Potential unsafe conditions related to the use of medical equipment and systems, preventative and corrective actions including risk mitigation.

Program Name**Description****Bachelor of Arts in Interior Merchandising and Management – Business Administration**

The Bachelor of Arts in Interior Merchandising and Management at the School of Media and Design readies students to pursue successful careers in the business of interior design. Through the program's dual emphasis on the creative, environmental and architectural side of interior design, and its organizational management and operations side, students graduate with a complete understanding of the many aspects of this dynamic industry. The Business Administration concentration is an interdisciplinary program that incorporates courses from the H-E-B School of Business and Administration.

The Business Administration concentration employs a broad approach to business education and preparation, through which students gain proficiency in business fundamentals through courses in Accounting, International Business Management, Business Law, Management Theory and Practice, Marketing, and Information Systems. They may also choose from a wide range of elective options.

Description

Bachelor of Science in Vision Science

The University of the Incarnate Word Rosenberg School of Optometry (UIWRSO) is one of only 23 Optometry Schools in the US and the only School associated with a Faith-Based Institution in the nation. UIWRSO offers a Bachelor of Science degree in Vision Science which is a pre-optometry pathway. This is the only program in the country where undergraduate students spend a substantial amount of time learning under the guidance and supervision of clinical academic faculty and professional staff in both the classroom and out-patient clinical settings.

Description

Electronic Systems Engineering Technology, Bachelor of Science

Engineering Technologists apply engineering and scientific knowledge combined with technical skills to support engineering activities. Engineering Technologists' areas of interest and education are application oriented. Engineering Technologists play key roles on the engineering team. They are usually involved in product development, manufacturing, product assurance, sales, and program management. The ESET program at A&M-SA emphasizes problem solving, laboratories, and technical skills. It prepares graduates as technical members of engineering teams working in industry, typically in manufacturing, avionics, medical electronics, information technology, and the US military services. There is a heavy emphasis on project based learning in close collaboration with San Antonio based industries and the military establishment.
